ONE GUARD SLAIN DURING BATTLE

Wooden Bench Used As
Battering Ram To
Break Stockade

(By Associated Press)

CHESTER, Ill., July 23—Fifteen of the 31 insane convicts who last night escaped from the state hospital for the criminal insane here, had been recaptured this morning.

One of the convicts was slain. Two guards were seriously hurt and others guards and officials badly beaten. Many of those who had escaped had been committed to the institution on their pleas of insanity when charged with murders in various parts of the state.

Numerous posses, including 50 guards of the Southern Illinois penitentiary, which is adjacent to the hospital, police officers and citizens was scouring a thickly wooded section north of Chester, where most of the fugitives are believed to be hiding.

The leveled topography of the section and bluffs skirting the Mississippi river, nearby, afford the escaped criminals many hiding places.

The delivery occurred when 227 convicts, who were in one exercise yard of the institution, a steel wire stockade, sensed a moment when their guards were relaxing and pounced upon them. The ten guards who were with the men in the enclosure, were Denny and Ralph Dilday were wounded, the latter being badly hacked about the body by one of the patients who was armed with a butcher knife, which he had secretly acquired.

After overpowering the guards, the convicts used a wooden bench as a battering ram and hammered a hole through the stockade, through which the men poured out and escaped in all directions.

One of the last men reported captured was overtaken in a cemetery a mile north of here, where he had concealed himself among graves and tombstones. His resistance was furious and it was necessary for the guards to beat him into submission.

No Strike Likely In Anthracite Fields

(By Associated Press)

BOSTON, July 23—John Hays Hammond, chairman of the United States coal commission, and Thomas R. Marshall, former vice president of the United States, who is also a member of the commission, are agreed that there will be no strike in the anthracite fields this fall; that the coal commission will not urge President Harding to call an extra session of congress in connection with the fuel situation, and that the price of coal to the New England consumers will not be higher than during the past two years according to a copyrighted article appearing today in the Boston Herald.

Heavy Business Done On 'Change'

(By Associated Press)

NEW YORK, July 23—The opening of the new board rooms of the Cotton Exchange today witnessed the heaviest business in many weeks, with a smash in prices that carried the levels of leading positions off 60 to 70 points, or \$3 to \$3.50 per bale, under closing prices of last Friday.

Negro Preacher Knifes Members Of Congregation

Row Over Selection Of Organist By Presiding Elder Results In Several Being Wounded By The Irate Minister. Officers Stop Fight

(By Associated Press)

LINEVILLE, Ala., July 23—Three members of the Lineville negro Methodist church are in a serious condition today as a result of an alleged knife attack upon them by their pastor, Rev. J. B. Ivey yesterday during service, at which the presiding elder of the district, Rev. W. Allen, was a guest and the officiating minister.

Police learned that the pastor objected to the choice of Presiding Elder Allen for an organist for the service. The woman responded to the call of the presiding elder, officers say, and Rev. Ivey began to smash the organ.

The organist's husband, Clyde Mosley, took a hand, Rev. Ivey set upon him with a knife and inflicted several wounds. Two other male members of the congregation went to the organist's aid and they too were slashed.

Pandemonium reigned in the church until police and citizens of the town took a hand. Rev. Ivey was placed in jail at Ashland to await the outcome of the injuries of the three men.

One surgeon exhausted himself trying to repair the injury done by the pastor and called a second surgeon to aid him.

Prohibition Now Being Systematically Impugned, Says Church Statement

CHICAGO, Ill., July 23—A statement and an appeal of church officials to all members and adherents of Protestant churches, saying that prohibition is being systematically impugned and defied by selfish interests, was made public today by Dr. Deets Pickett, research secretary, Board of Temperance, Prohibition and Public Morals of the Methodist Episcopal church through the committee on Conservation and Advance, Chicago.

The statement is signed by Dr. Charles Scanlon, LL. D., general secretary of the Board of Temperance and Moral Welfare of the Presbyterian church in the United States, Dr. Charles True Wilson, general secretary of the Board of Temperance, Prohibition and Public Morals of the Methodist Episcopal church; Rev. Samuel Zane Batten, D. D., Social education secretary of the American Baptist Society, Northern Baptist Convention; Dr. James Empringham, general secretary, church Temperance society of the Protestant Episcopal Church; Rev. Milo J. Smith, general secretary, Board of Temperance and Social Welfare of the Disciples of Christ, and Dr. Rufus W. Miller general secretary, Publication and Sunday school board of the reformed Church.

The following is the statement:

"The Christian people of the United States today face a situation calling for patriotic determination. Prohibition, established by orderly processes as the result of generations of discussion and hundreds of decisions at the ballot box, is being systematically impugned and defied by selfish interests. Alien influences, not cases anti-American, propose to establish a condition of nullification law.

"These men are not making a direct attack upon the 18th Amendment as they know that such an attempt would be fruitless. What they desire is to weaken enforcement of the law, to encourage its violation, to incite hostility to it by subtle jests, false rumors and distorted facts. It is particularly their object at the forthcoming and succeeding Congressional sessions to weaken enforcement of the prohibition law by unjust criticism and hampering of the administration of the law. Those who are attempting this are largely the same people and animated by the same motives, as those who fought unsuccessfully for the retention of the saloon and who were responsible for the corruption and disloyalty of brewing organizations, exposed by the investigation of the senate Judiciary committee during the war.

"It is important also to warn the millions of Christian people in order that later it may be necessary to call them to a crusade against untrustworthy candidates for political office. There should be no misunderstanding. The Christian people of this country demand that all political parties shall declare for full enforcement of prohibition and against any weak-

ening of the National Prohibition act. The churches of this country expect no party to put forward for the suffrages of the American people candidates for President or Vice-President who are opposed to the United States Constitution they must swear to enforce or who are politically indebted to corrupt influences or who have encouraged the nullification of American laws. This is a Christian nation and ought to be ruled by Christian patriots. The supremacy of law in America must be maintained."

CALL GOVERNMENT A GOOD EMPLOYER

A close up view of work at Wilson Dam, as given by workers there, reveals the fact that the government is making a good task master at Muscle Shoals. Where carpenters are employed they are paid at the rate of \$5.25 a day, with board sleeping quarters and laundry thrown in.

In other words only twenty five cents a meal is charged for regular 18 meals in a six day week, and besides the workers are allowed to take their Sunday meals at the government dining table without extra charge waiters are paid \$6.00 a day and seventy five cents of that money is taken out for board and laundry.

The payment for laundry extends to the bed clothing, the individual worker paying the laundry bills for his own clothing.

Some from Wilson Dam stated today that those in charge of the work on the dam expected to have it "closed in" against the waters of the Tennessee river, "by the time the rainy season sets in."

It is estimated that many months will pass before the great structure stands complete.

It will be something over 100 feet high and about a mile long all of solid rock, concrete.

ONLY TWO INFECTED COWS DISCOVERED

Health Officials Have
Finished Their Tests
Of County Herds

ABATTOIR PLAN IS THOUGHT BEST

Full Inspection Of All
Beef And Pork Sold
Is Recommended

After a week spent in Morgan County testing the dairy cows for tuberculosis and inspecting the dairy barns, F. A. Rile, of the United States department of agriculture, expects to leave this section of the state after the slaughter and examination of two cows, out of the 202 examined, that were unable to stand the tuberculin test, as given by Mr. Rile and J. M. Holly, county sanitary officer.

It was stated by Mr. Rile that there he came in contact with native reared cattle, tuberculosis was unknown, and that the two cows found to have the dread disease had been brought into Morgan from neighboring sections.

Mr. Rile stated that as for tuberculosis the dairy cattle of the county showed up wonderfully well, but that he could not say the same for the manner in which some of the dairies were being kept, nor as to the way the beef cattle and hogs are being butchered, in the county.

Mr. Holly stated this morning that Mr. Rile was horrified to learn the fact that a cow was once butchered for local consumption which was suffering from a large rising on her jaw.

The federal inspector recommended that an "abattoir" be maintained near the Twin Cities either by the cities or by individuals and that all cows and hogs meant for slaughter and local consumption should be first examined alive at the "abattoir" and then after being butchered. He said that a small charge could be made for the establishment and operation of such an "abattoir," and that it would be self sustaining.

Mr. Rile also recommended full inspection of all beef and pork sold in the Twin Cities, as would be required under a standard ordinance dealing with such matters. He said that all means the some 1,500 gallons of milk sold here daily should be examined regularly.

In this Mr. Holly agreed, saying that the health department at present was unable to give only "general supervision of the dairies."

Tuberculin Tests Given.

Two tests are made for tuberculosis among cows, Mr. Rile stated. The first test consists in putting a serum just under the first skin of the cow. This is called the "Von Pirquet" test. A rising immediately occurs, but it goes down. If after 48 to 90 hours this rising does not again rise, the cow tested is not believed to have tuberculosis; but if there is a second rising, the cow is ordered killed, as being diseased. The second of the tuberculin tests is called the "Ophthalmic" test, stated Dr. H. C. McRee, County Health officer. This test is made by a brown powder being placed under the upper lid of the cow's eye; if after about 48 to 90 hours, no rising results, the cow is adjudged to be free from the great white plague.

Mr. Rile stated that in a neighboring large city 15 milk cows out of a herd of 660 had to be killed as having tuberculosis; it being explained that the herd had been shipped into the state from New Jersey.

In another locality of the state 34 out of 90 cows had to be killed as the 34 had tuberculosis.

Mr. Rile stated that his examination of the dairies was made on three counts, as to the physical condition of the cows, second as to the cleanliness of the barns, the cows, and the utensils used at milking time, and third as to the cleanliness in way the cows were fed.

The department does not "kick," county sanitary officer, J. M. Holly stated this morning if the count for bacteria showed not above 50,000 to the cubic centimeter, but when the

Appreciative Congregation Hears The Message Of The First Baptist Pastor

Before an appreciative congregation at the First Baptist church of Decatur, last night, the pastor, Dr. Charles C. Davison, preached on "What Christ Thinks of Us."

The speaker reminded his hearers that previously he had spoken on "What Think ye of Christ?"

The congregation was told that many gazed on the crucifixion of Christ and wondered at the scene and its meaning, and stated that to know what that great event meant it was necessary to know what Christ thought, as well as what we think of Him. The scripture reading was from John 19, and the question was asked "What did Jesus See?"

"First Jesus saw prophecy fulfilled. All prophecy either has been, is being or will be fulfilled. God makes no mistakes. The prophecy of his sacrifice for sin, his being pierced of the soldiers parting his garments and casting lots for his vesture and others were fulfilled.

"Second, Jesus saw a trophy of the cross. The crowd wagged their heads and taunted him to come down. The thieves told him to save himself and then if he were the Son of God. He saw the different types of sinners who were in the world today. The unrepentant thief represents the hardened, cold, sinner. The other thief represents the sinner who still had a heart. He turned to the Son of God in repentance and faith and two souls entered paradise that day. They were but to be followed by thousands of others who turned to Jesus in simple faith.

"Then Jesus saw his friends. What a blessing God gives us in friends who are always present in the hour of trouble or sorrow. First there was his mother. The mother is the best friend in this world. Nothing will separate a child from her love and affection. Then there was his aunt, Mary the wife of Cleopas and Mary Magdalene from whom He had cast out seven devils and I imagine Mary and Martha and Lazarus of Bethany whose home had been the Master's. Then there must have been many present whom He had healed. The one leper who turned back to thank him must have been there. But the Master must have been sad when he looked for many who did not come. Some stayed away for fear of unpopularity, some for press of business, some for social reason.

count went up to 300,000 to the cubic centimeter, as was the case at one dairy, "too much filth was in abundance."

MANY ARE INJURED WHEN EARTH ROCKS

Windows Broken, Walls
Tumble And Public
Badly Frightened

PRANKS PLAYED BY THE TREMOR

Clocks Stopped, Dishes
Broken And Burglar
Alarms Set Off

(By Associated Press)

LOS ANGELES, Calif., July 23—Southern California was jarred late last night and early this morning by a series of earthquake shocks, some of sufficient violence to shatter plate windows, and to send tons of stone and brick tumbling from buildings.

The tremors were heaviest in San Bernardino and Redlands. Milder shocks were felt between 11:28 p. m. and 1:00 a. m. elsewhere from San Diego on the south to Santa Barbara on the north and as far east as the Arizona state line.

Three men lying in their beds in San Bernardino were severely injured by falling debris. Two lodgers in a rooming house were buried under a roof which collapsed. Rock, weighing more than 200 pounds each, plunged from the roof of a higher building and crashed in to the room of George F. Fisher, shattering the bed in which he slept. Fisher, however, was only a comparatively small man, which crushed his shoulders and fractured one of his hands.

Dozens of plate glass windows were broken in Redlands and several buildings suffered minor damage.

Typical of the pranks reported from all points were those of a sharp tremor or in Los Angeles. Here the brick shock stopped clocks, set off burglar alarms, rattled and broke dishes and cracked plaster.

Artesian wells on the Warren ranch, south of San Bernardino which had not flowed for years, gushed forth immediately after the quake tremors. Loma-Linda sanitarium, near San Bernardino, were alarmed when plaster crashed from the wall and chemical containers in the laboratory burst with loud reports. The patients were quieted and examination of all disclosed that none had been hurt.

In some instances power, light and telephone service were disrupted for a time. Reports had it that tremors had been felt in the northwestern part of Arizona but there had been no confirmation this morning as telegraph service into that district from Los Angeles failed.

Santa Barbara was the extreme northern point from which earthquake reports were received and San Diego, the furthest south. The shocks extended eastward across the Imperial Valley nearly to the Arizona state line.

No serious damage was done here. Long Beach, Glendale, Eagle Rock, Riverside, Monrovia, Tomsa, Santa Anna, Ontario, Anaheim, San Jacinto, Hemet, Ventura, Redlands, Lel Centro, Arrowhead Springs, Mojave and Needles were other places where the sharp shocks were reported felt.

Just Two Appeals On Tax Assessed

According to appointment the Morgan County board of revenue met at the court house today to hear any appeals that property owners might wish to make against the tax apportionments as made for the present year.

Two large property owners appeared before the board this morning. At noon today only one of the cases had been disposed of.

It was stated that the board refused to lower the tax valuation in the case completed, deciding to approve the tax valuation as fixed several months ago by the tax adjuster.

It is expected that late today, a decision will be reached with regard to the appeal of the other large concern.

200 Water Meters Placed In 60 Days

Following the general policy of the Alabama Water company to install water meters in the residences and business houses of the Twin Cities, about 200 such meters have been installed within the last 60 days, stated P. B. Hale, local manager of the water company.

Charles H. Eyster, attorney for the company, stated that the state public service commission had encouraged the installation of water meters and had recommended that the Alabama Water company be allowed to float a large loan for that purpose.

THE 18TH AMENDMENT TO STAND UNLESS ALCOHOL AND ITS FRIENDS CHANGE.

The full grown conviction that the liquorites and their business could never be controlled, made the establishment of the 18th Amendment to the Federal Constitution a fact of history, and until the opposite of such a conviction prevails throughout this nation, Barleycorn and all his works are banished forever. Legally the liquor traffic will never function again in this country, unless its makers change their nature and alcohol itself changes its nature.

A startling proof of the "total" depravity of the liquor traffic and of those who are willing to profit by it at this time, comes from an Associated Press dispatch from Louisville, Ky. The dispatch in question states that P. Green Miller, prohibition enforcement officer for Kentucky and Tennessee has recently issued a warning saying that poisonous whiskies being sold in Louisville (the warning applies to all whiskey sold everywhere) "will cause death, blindness and paralysis."

Such poisons are sold for the pure "bottled-in-bond" article. A government analysis of this "superior" beverage, Mr. Miller said, revealed its dangers, but that the general public could not detect the dangers until too late.

Much of the poison liquor hawked about the country, or sold under most attractive circumstances is "a distillation of certain patent medicines of large alcoholic content and is being mixed with poisonous coloring matter."

It is asserted by Mr. Miller, that old government stamps, once used on real "bottled-in-bond" whiskey packages, are being stolen from the old Atherton distillery near Louisville and from other such places, and placed on these modern whiskey packages that are full of beverage much more poison and destructive than the alcoholic drinks originally outlawed by the 18th Amendment.

VILLA'S OWN PROPHECY CAME TRUE WHEN HE MET A VIOLENT DEATH.

Not many who know the scriptures only slightly failed to recall the pronouncement "they that take the sword shall perish with the sword" in connection with the death of Pancho Villa the Mexican General-Bandit at the hands of his Secretary, Michael Trillo.

News dispatches state that Villa "maintained an isolate position, having his own artillery and cavalry companies."

Villa was living like a feudal lord on a large estate that was given him at the time he finally surrendered to the civil authorities of Mexico.

All seemed to be going well with Villa and his numerous associates on his big farm until dry weather rendered the crops of the large estate of little value. Villa was unable to pay his men regularly and general dissatisfaction began to prevail.

Villa, as was his custom, when trouble came resorted to force to sustain himself. He is reported to have threatened in case his men showed signs of an uprising to put it down with an iron hand with the use of the great store of guns and ammunition he always kept near him.

Villa's secretary, Michael Trillo seems to have become involved in the troubles that arose in the Villa establishment as matters began to grow tense. Trillo is said to have shot Villa dead during a quarrel, and then loyal supporters of the former bandit shot and killed Trillo.

A significant statement in connection with the death of Villa was that he always showed "an aggressive disposition to hold on to his property."

Although he had trusted in the sword and not Villa continued to trust in riches to such an extent he might have come through his machine.

many hard places safe and sound and lived to a ripe old age. But just as surely as it is true that those who take the sword perish by the sword it is also true that "the love of money is the root of all evil."

The manner of Villa's death is a fulfillment of his own prophecy concerning his end. He said that he would die by the same violent means that he had employed for so many years of his mispent life.

SPEAKING ABOUT MAKING WAR UNPOPULAR AND IMPOSSIBLE.

Former editor Edward Bok of the Ladies Home Journal offers \$100,000 as a prize to be given to the person who according to duly appointed judges presents the "most practical" plan for world wide peace. The interest shown by Mr. Bok in peace commendable, especially when it is considered that while not an extremely rich man he has offered such a large sum as a peace prize.

It would be well if Mr. Bok or some one else would promote a movement making for its object the finding out of the causes of war. When any disease is to be treated the physicians seek its cause and then seek to remove the cause of the disease. It would seem important first of all to know the causes of war. Already the country is full of cure-alls for nearly everything including war, although it may be a fact that the greed of the autocrats of Germany brought on the war that was started in 1914, still such a war would have been impossible unless about 70,000,000 German people had been for the war.

Autocracy may have been the occasion of the world war, but its cause lies deeper than the lying diplomats who backed that certain imbecile who led to the world war calling on God's name as he did so.

If the history of the causes that led up to the world War could be truthfully written the disclosures therein might help wonderfully in finding out the world war and of all other such conflicts.

Important distinction should be made in the education of the children of a nation as to what true patriotism is. Children should not be taught that their country is the only one that has done great deeds or can accomplish great things.

It is not well for children to be told their country's leaders are absolutely right at all times. As far as America is concerned, this country has enough good deeds to her credit, as to need no defense of lies and misrepresentation. And many foreign countries are not so bad as they are often pictured.

The spirit of war will be hindered mightily when nations teach their young not only to respect their own country's flag, but also the flags of other nations. True self respect demands respect for others. Another help against wars would be the education of the young to believe that the world is all one big family of nations, where if one nation suffers all suffer, and where if one nation benefits all will benefit. A full realization of the mutual interests of all the nations of the world, will go a long way toward making war unpopular and impossible.

If what Ex-President Poincare says in German is as plain as it sounds in English, the inhabitants of the Fatherland cannot well evade his meaning—although they will try to, of course.

The manner of the going of Minnesota is doubtless being described by the faithful of the G. O. P. as "hell-bent."

Let those who are rejoicing that Mr. Harding has had a set back in the election of Magnus Johnson, and who are saying he cannot be re-elected remember that the Presidential election is over a year removed from the present good day.

The political cyclone has struck the republicans because they are in power; but the west's rampage may continue and strike others.

Emerson says there are compensations, Magnus Johnson did beat Preus but now we will not have to learn to pronounce the latter.

The new Senator from Minnesota is said to have a voice like those from megaphones.

The sweetest apples have had their sour periods. Don't be too hard on anybody.

Why should't W. J. Bryan now turn his guns away from the evolutionists and against the American physician in England who opines that the human is only an electric machine and that the emotions are only levers with which to work that machine.

Former Resident Writes Photoplay

Friends of Mrs. Elizabeth Boucher, a former local resident, will be interested in the success she is making as an author of screen plays. "A Doctor's Scheme" is one of her latest film plays. A synopsis of which is given in the current issue of "Photoplay-wrights Studio Review" as follows:

Marjorie Kramer, the only child of a multi-millionaire, is compelled by her socially ambitious father to give up her sweetheart, Doctor Ward and marry Count Henri de Rochefort. The Count takes his wife home to France where she is extremely unhappy. She writes to her father of this and he regrets his harsh decree. Doctor Ward knowing of Marjorie's unhappiness, visits the castle in disguise. The count insults his wife in the Doctor's presence and the latter reveals himself and fights him. He is challenged to a duel in the course of which the Count is killed. They all return to America and after a short while the sweethearts are finally married.

Mrs. Boucher is the mother of Mrs. Ernest Morrow, well known local woman.

S.S.S. Against Pimples

THERE are thousands of women who wonder why their complexions do not improve in spite of all the face treatments they use. They should not wonder. Eruptions come from blood impurities and a lack of clean blood-cells. S.S.S. is acknowledged to be one of the most powerful, rapid and effective blood cleansers known. S.S.S. builds new blood-cells. This is why S.S.S. routs out of your system the impurities which cause boils, pimples, blackheads, acne, blotches, eczema, tetter, rash. S.S.S. is a remarkable flesh-builder. That's why underweight people can quickly build up their lost flesh, get back their normal weight, pink, plump cheeks, bright eyes, and "pep."

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

What will your children eat during the hot vacation days?

Too much meat in summer overheats the blood; too much starchy food often interferes with digestion.

Children must have plenty of energy-producing food, but it must be wisely chosen.

Grape-Nuts is a safe and satisfying summer food. It supplies the energizing nutriment of wheat and barley, together with the natural mineral elements which many foods lack.

Grape-Nuts with milk or cream is a complete food, crisp and delicious, easily digested and quickly assimilated.

Your grocer has interesting details of our offer of over \$7500.00 for Grape-Nuts Recipes. Ask him about it TODAY or write to Recipe Dept., Postum Cereal Co., Inc., Battle Creek, Mich.

Athens News

ATHENS, Ala., July 23—The business men of Athens and Limestone county were invited to attend a meeting at the court house on Friday evening at eight o'clock for the purpose of planning a trade campaign for August and September looking forward to the County Fair in September. A plan of commendable character was worked last summer and fall which did much for the trade in Athens.

Thos. Sanders, a popular attorney, of Athens, did the nice thing Thursday afternoon when he invited the Bar of Athens to be his guest at a "Fish Fry" at Swan lake. Tom is a genial hearted fellow and enjoys the best of fellowship with the lawyers of the bar and town as well as the entire community. A pleasant evening is reported.

The Women's Bible Class of the First Baptist church of Athens extended a cordial invitation to the men of the Men's Bible Class of the same church to be their guests to a barbecue Friday evening. The happy occasion was on the beautiful grove of Mr. and Mrs. J. C. Isngole just south of Athens.

The churches of Athens are uniting their evening services during the months of July and August. The service goes next Sunday evening to the Christian church and the pastor of the Presbyterian church Rev. Thos. R. Husk, will do the preaching. The services are well attended and are developing a fine community spirit.

FRIEDA HEMPEL CANNOT SING IN GERMAN

Frieda Hempel, word-famous prima donna, has let it be known in Berlin, that she is not allowed to sing in Germany, the land of her birth. A faction of the monarchist group declares she was disloyal to Germany during the World War.

Girl Killed When Automobiles Hit

(By Associated Press)
DALLAS, Texas, July 23—Miss Sarah Tinkston, 206 of Shreveport, La., died at a hospital here this morning as a result of a collision between two automobiles at a street intersection at Oak Cliff, a suburb, about 1 a. m. today, when three others were injured.

Miss Dobbie Tinkston, 30, sister of the dead woman and supervisor of public schools at Mer Rouge, La., and Louie Williams, 23, of Dallas, are in a critical condition. L. S. Tinkston, brother of the two women, with whom they were visiting, is less seriously hurt.

J. Y. Brannon, driver of the automobile which collided with the one in which the others were riding, escaped with minor injuries. Tinkston and Brannon, drivers of the automobiles said they were unable to explain how the accident occurred.

BOYS TO AUBURN TO STUDY FARM PLANS

Farm Boy's club members from the Tennessee Valley entrained here today for Auburn college, where a convention of farm workers will open Tuesday, and continue for a week.

In addition to the boys from Morgan County, ten other boys bound for Auburn took the same train south in care of Mr. Lawrence of Auburn, who is in charge of the boy's demonstration conference.

The ten boys are from Lawrence, Lauderdale and Colbert counties. J. C. Ford, county farm agent saw Joseph Barclift of Lacey Spring and Clyde Crawford of Ryan off on L. & N. train No. 3 this afternoon.

In support of the movement to have the farm boys of this county trained after the most improved methods in farming, the Morgan County board of revenue recently made an appropriation of \$50.00 to be used in furthering the interests of the farm demonstration school at Auburn which the farm boys of the state are to attend at this time.

Forecasting Weather.

When the mercury falls suddenly in hot weather, look out for thunder or high winds. In frosty weather a thaw is foretold. When the weather is already wet and the mercury continues to descend, more rain can be expected. During winter, if the movement of the mercury is unsettled, with sudden rises and falls, unsettled weather conditions are likely to prevail.

Superstition Concerning Moon.

Why is it considered unlucky to see the new moon through glass? Moon-worship is one of the oldest forms of religion, and the new moon as the symbol of reviving life was so sacred that whole tribes would assemble waiting for it to appear. Anyone who saw it through glass must have been indoors, and therefore absent from the sacred ceremony of welcome.

Rivers in the Oceans.

The oceans have their rivers just like the land. The best known of these is the Gulf stream, but the greatest is the "Kuro Siwo," or Black stream, which runs from Japan due east toward the American coast, and so wonderfully modifies the climate that in summer humming birds are found in southern Alaska.

Music a Language.

Music, independent of any words and any written poetry, must be the true poetical language of man, subject to a logic of its own, and able to express ideas of the most elevated order—ideas too vast even to be well rendered in any other language.—George Sand.

Why Lodestone Was Favored.

One of the earliest gems used in the engagement ring was the lodestone, which symbolized the force of attraction which drew the maiden from her own family into another.

Ancient Phrase.

"You've said it," indicating that the speaker agrees with what some one has said, is supposed to be a modern phrase. In Luke's gospel we read that Pilate asked Christ "Art thou the king of the Jews?" and Jesus Christ replied "Thou sayest it."

Why "Topsy-Turvy."

The expression "topsy-turvy" was originally "topside-turfway." When turf is cut for fuel it is turned upside down to dry, the "topside" of the "turfway" being underneath. So the expression came to mean upside down.

Nothing Good Comes From Evil.

That which is won ill will never wear well, for there is a curse attends it which will waste it; and the same corrupt dispositions which incline men to the sinful ways of getting will incline them to the like sinful ways of spending.—Matthew Henry.

Birmingham Mechanic Says Trouble Is Over

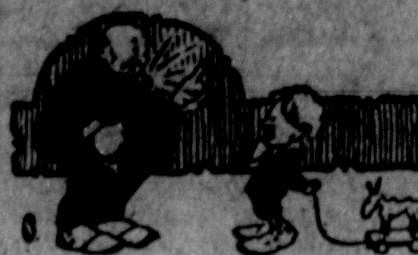

"I'm glad to recommend Tanlac, for it's the best tonic in the world to keep a working man fit," said G. F. Johnson, well known auto mechanic living at 615 N. 22nd Street, Birmingham, Ala.

"For several months I had a very poor appetite and for a long time my food all disagreed with me. I didn't have the energy one in my line of work has to have to keep going at the regular pace. Tanlac fixed me up so well I've been in good health ever since, although it's been a year ago. I haven't had any more trouble with indigestion and have so much energy I've been holding my own at my work all along. Tanlac is top-notch."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac vegetable pills are Nature's own remedy for constipation. For sale everywhere.
